

Fingerprint Apple or Cherry Tree

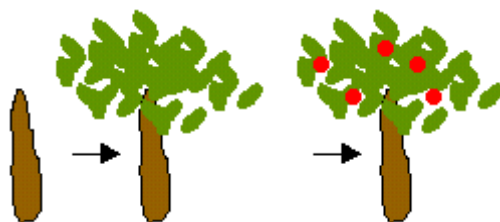

Use your fingers to create this easy apple or cherry tree.

The picture to the right is a photograph of the finished craft.

Stamp the side of your hand in brown paint and stamp it on the paper as the trunk.

Stamp your index finger in green paint and stamp it many times on the paper for the leaves (re-dipping in the paint as necessary)

Stamp your pinkie finger in red paint and stamp it lightly on the paper for the apples (light stamps make rounder prints)

Good for Adam and Eve, Johnny Appleseed, Arbor Day, George Washington (cherry tree) and Summer themes.
